Business: Stock Market

Relevant Coursework

Calculus III • Physics I • Technical Communications • Computer Science • Web Development

Computer Science Projects

Postogon

Feb 2021 – Aug 2021

Web-based social media application that differentiates between professional and casual. Working with a team to finalize the project.

- Work with HTML and CSS to design webpage
- Utilize PHP to control server-side interaction such as registration
- Create documentation to streamline development
- Work with Figma to design general layouts
- Utilize Github to share repository
- Follow agile methodology to develop and test new features

Social Media Application (personal project)

Jan 2021 – Jan 2021

A mobile application that will bring a sense of community to individuals not able to share their accomplishment because of modern social media apps that focus more on marketing. Currently in progress of completion.

- Code in Swift and utilize SwiftUI to design the user interface
- Used Xcode IDE to code in Swift (self-taught)
- Create Structs to personalize different sections of the app

Work Experience:

Specialist | Apple Retail

Oct 2021 – Present

- Highly skilled at uncovering customers' needs, then following through with enlightening solutions
- Maintaining visual merchandising and assisting team members
- Ready to apply my learning in customer interactions

Operations Team Member | Life Time Fitness

May 2021 – Oct 2021

- Maintains indoor and outdoor club cleanliness and safety by performing daily maintenance tasks
- Responds to member inquiries regarding Life Time products, services, policies and procedures
- Assists with the needs of other departments to ensure quality of experience for members
